Accessibility Summary
Constructive Communities

March 6, 2023

Current Compliance: Compliant.

All issues possible to address have been addressed before the publishing of this summary. Constructive Communities has worked striving for compliance and has found Squarespace native software to be dissatisfactory. Regardless all content created by Constructive Communities is Compliant.

Priority definitions:

1. Priority 1

Has both usability and accessibility violations that make the artifact unusable for a person with disabilities.

Can be fixed quickly and requires little to no site restructuring.

2. Priority 2:

Has both usability and accessibility violations that make the artifact difficult to use for a person with disabilities.

Can be fixed with some difficulty, might take longer, and may require site restructuring and planning.

3. Priority 3:

Has both usability and accessibility violations that make the artifact slow/inefficient to use for a person with disabilities.

Requires time for planning and restructuring internally in WMATA, includes long-term preventive actions.

Priority 1 Issues:

There are no Issues under Priority 1.

Priority 2 Issues:

There are no Issues under Priority 2.

Priority 3 Issues:

There are no Issues under Priority 3.

Issues that cannot be resolved:

1. Empty link. –

This is an issue not controlled by the owner but by the creator of the template and Squarespace. Squarespace support has been contacted and has not provided a solution but promised to look into it.

2. Missing form label on the contact us form

This form cannot be modified due to Squarespace native code. Squarespace support has been contacted and has not provided a solution but promised to look into it.

Monitoring:

Manual monitoring audits will be done every 6 months by the Results One Team.
